

## HOW TO UPGRADE YOUR PROTUBEVR TO MAGTUBEVR VERSION

### Step 1

What you need for the rear cup:

- 20 mm screw
- 1 nut
- 2 O'rings
- Notched washer
- Magnetic cup
- Notched magnetic support

1.1. Put the O'ring on the  
20mm screw

1.2. Pass the screw and O'ring  
thru the notched  
Magnetic support

1.3. Add the notched washer  
on the other side

1.4. Join the notched magnetic support  
and the T-notched connection, and add  
the last O'ring

1.5. Add the nut and tighten, the magnetic  
support must be able to move though

## Step 2

What you need for the front cup:

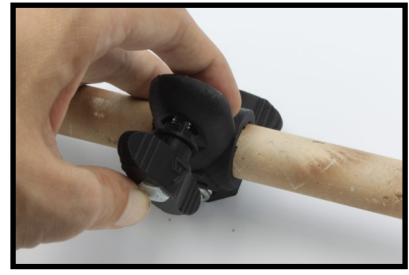

- Hex screw
- Butterfly
- Hex washer
- 1 nut
- Rubber washer
- Magnetic cup
- Smooth magnetic support

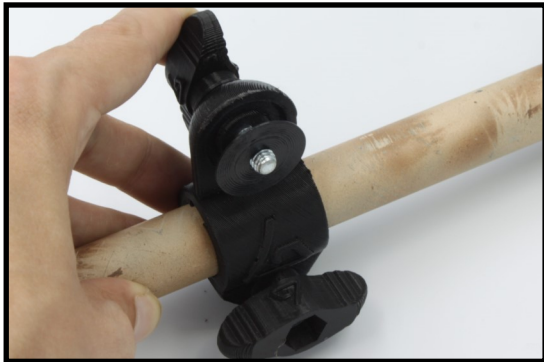

2.1. Put the hex screw thru the butterfly

2.2. Add the hex washer

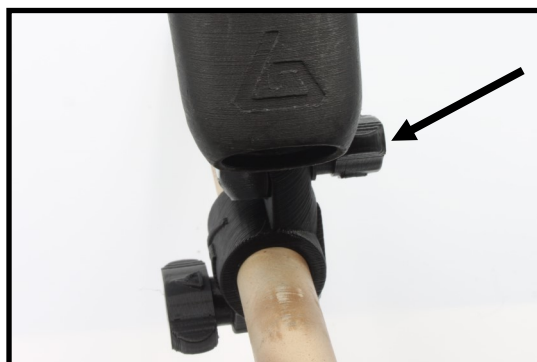

2.3. Pass it thru the T-notched connection

2.4. Add the rubber washer

2.5. Add the magnetic support and the nut and tighten them with the butterfly, the magnetic support must be able to rotate

The butterfly must be at the opposite of your hand when you're holding your ProTubeVR

Enjoy feeling the game !
